

**Computer and Processor:**

Personal computer with an Intel Pentium IV 1.5-GHz or faster processor (or equivalent)

**Memory:**

512 MB of RAM or greater

**Hard Disk:**

100 MB of available hard-disk space

**Drive:**

CD-ROM or DVD drive

**Display:**

Super VGA (800 x 600) or higher-resolution monitor  
(The higher the resolution, the more channels and cues are visible at once)

**Ports:**

To be compatible with all Horizon Interfaces, it is recommended that a Horizon PC have the following ports:

- Parallel (For use with the Horizon Parallel Interface)
- USB (For use with the Horizon USB Key)
- Ethernet (For use with Horizon Playback Controller, Horizon Ethernet Node, and Ethernet based lighting protocols such as Pathport and Art-Net)

**Operating System:**

Microsoft Windows® XP or later recommended

**Software:**

To insure system stability, Horizon Control Inc. recommends a Horizon PC be dedicated to lighting control functions. Software Installed on the machine is at user discretion. It is recommended that no applications other than Horizon to be running during use. This includes Anti-Virus software.
